

LAUREN WRIGHT MSN,AGNP-BC

Adult-Gerontology Nurse Practitioner, Biome + Breastfeeding Researcher

OBJECTIVE

I am seeking a role with a company that shares my vision to optimize wellness in the global underserved community. I hope to improve access to care through transformative innovations that address gaps in industry and provide compassionate, integrative therapeutics that are attentive to patient's needs.

QUALIFICATIONS

- **Managing competing high level priorities** Scholar in a full time, dual degree PhD in psychoneuroimmunology and NP program, while working clinically on a Nationally funded research study while patenting a U.S. government agency backed infant feeding innovation from my research, and starting a company.
- **Industrious Innovator** First student to serve as principal investigator and entrepreneurial lead for the National Science Foundation program to scale three inventions and incorporate a business based on customer discovery.
- **Goal Oriented Entrepreneur** Gained traction after intellectual property was evaluated & preferred by health insurance companies + Fortune 500 international industry giants including Johnson & Johnson.

EXPERIENCE

Dec 2019- Present **Tele-Health Nurse Practitioner** Baby Live Advice

- Coordinates comprehensive perinatal care virtually by filling educational gaps of expectant parents
- Provides care resources, medical advice, and develops safety plans
- Triage and refers complex cases resulting in reduced complications and better outcomes for mothers and their babies

Jan -Dec 2019 **Forensic Nurse Practitioner** Tampa Bay Crisis Center

- Conducted sexual assault medical exams and documented histories for patient's defense in court
- Performed evidence collection via forensic photography of injury, collecting, and processing of biological specimens
- Treated acute injuries and administered OB/GYN related medication

Nov 2014- Oct 2018 **Tampa General Hospital c/o University of South Florida** Intensive Care Unit

Research Nurse

- Conducted physical exams and interventions of critically ill, ventilated, adult patients with utmost attention to wellbeing
- Responded to changes in patient vitals immediately while performing time sensitive specimen collection, data analysis, and data entry and management
- Developed effective Personnel Training Procedure, Training Checklist, and continuous Competency Reliability Monitoring for team members
- Prepared study initiation activities, manuscripts, and obtains informed consent consistent with state and federal statutes

EDUCATION

University of South Florida, Tampa,FL.

PhD in Nursing Science student, Jan 2015- Aug 2019

LAUREN WRIGHT MSN,AGNP-BC

Adult-Gerontology Nurse Practitioner, Biome + Breastfeeding Researcher

EXPERIENCE CONT.

Feb 2018- Present **President + Founder** The Natural Nipple

- Applies clinical and research knowledge of gaps in industry to design a patented infant feeding solution designed to solve a primary barrier to breastfeeding. This feeding system gives care givers the ability to introduce a bottle without consequential latching problems or fatal complications from un-natural flow rate- reducing hospitals' length of stay cost while improving health outcomes for future generations
- Resilient leader that balanced clinical work, research, and launching a fast paced startup and dedicated team
- Rapidly raised over \$250,000 in grants and investments within a year of business model design and creation of market pipeline through credibility and effective data presentation
- Over 10,000 hours of research conducting interviews with stakeholders during The National Science Foundation's I-Corps program to clearly understand the maternal health competitive landscape, technology, and buyer needs as demonstrated by securing hundreds of interested industry partners
- Relentlessly and creativity persists to secure key partners- ranging from C-level audiences to clinicians to end users
- Effectively assess buyers (decision makers, influencers and champions); building persona-appropriate approach to bring value to each buyer, implementing experiential knowledge of B2C and B2B perinatal and clinical pain points using Steve Blank's business model tool

CLINICAL HOURS

Jan- May 2017 **Internal/ Geriatric Medicine Practice**, 250 clinical hours

- Performed patient assessment, diagnosis, treatment, and education
- Prescribed medication, non-prescription medications, and formulated plan of care according to evidence-based practice guidelines
- Performed in-office procedures utilizing sterile techniques while maintaining patient comfort
- Initiated consultations and referrals to support provision of safe and effective care

May - Dec 2016 **United Healthcare -Home Health** 250 clinical hours

- Obtained comprehensive health history and careful physical assessment in order to formulate thoughtful differential diagnosis
- Identified appropriate screening, diagnostics, and interventions appropriate for differential diagnosis
- Assessed patient/family learning needs; provided developmentally appropriate teaching, guidance and counseling regarding management of health/illness conditions and coached the patient/family in an empathetic manner by encouraging healthy behavior changes over time
- Formulated an evaluation and management plan of care based on scientific rationale, evidence-based standards of care and practice guidelines with attention to safety, cost, invasiveness, and community resources
